The Reversomatic high efficiency air cleaner housing is easily installed with any type of forced air heating/cooling system. Standard sheet metal procedures are followed and no special tools are required. The Reversomatic air cleaner housing is mounted in the Return Air Duct - horizontally, vertically, or at an angle as required.

Continuous air circulation is recommended for best results. Set the furnace blower to run constantly at low speed.

Studies have shown that removing harmful particulates from indoor air can have a positive impact on many chronic health conditions that include allergies and asthma. Protect your family's health by installing a quality Reversomatic® Air Cleaner.
